FS6 Compression Foot Sleeve Natural

#8-FS6N

Description

FS6: Compression Foot Sleeve

- Relieves plantar fasciitis
- Eases heel pain
- Aids recovery
- Reduces swelling

The FS6 is incredibly effective at relieving the pain of plantar fasciitis, chronic arch and heel pain, and swelling in the foot. Compression Zone Technology woven into this amazing foot sleeve provides medical grade orthopedic support for the foot structure and the Achilles tendon, plus graduated compression to improve circulation and reduce swelling. This ultra-comfortable moisture-wicking foot sleeve can be worn under normal socks and shoes. Wear FS6 overnight and experience morning pain relief from the first day. Sold per pair.

Available in Small, Medium, Large and Extra Large.

Product #8-FS6N

Where to measure	Size	Arch Circumference	Average Shoe Size		
			US	UK	EU
