Powerstep Wide Fit

#25-950

Description

The Powerstep Wide Fit relieves heel and arch discomfort in a wider profile that better fits wide width footwear. It provides the perfect blend of foot control, support and cushioning. The Wide Fit Full Length orthotic provides a semi-rigid polypropylene foot support sealed in two layers of foam that is calibrated for firmer arch support to resist "bottoming out" underweight. The orthotic also features a stable heel cup.

Available in twelve sizes.
